

# How it Works

Your A-Z of scavenger hunts...

## 1 Picking your hunt

Visit our selection of scavenger hunts from the top navigation titled Hunts. Each hunt has an age bracket and notifies you whether it's for children or adults. Select your idea hunt/s. Please note the format before purchasing.

**Purchase your hunt – you will get your download delivered to your inbox in a flash!** Don't forget to download your scavenger hunt score sheet too, to send on to all your guests.

## 2

## What you need to decide

Now that you have your scavenger hunt, **decide who is going to be the host** – this person will manage the scavenger hunt and everyone taking part – and also score the final sheets to announce the winner(s).

We can also provide a host on request (extra fee) who can manage your hunt for you if required. For more details on this drop us an email.

## 3 Ahead of time

Our scavenger hunts are best used on a video conferencing platform, so you can share the story and the list with your guests. **Make sure you have your preferred video conference platform installed on your laptop and or mobile devices beforehand** to avoid any technical snafus. You can use Zoom.us, Google Hangouts, Skype and Whatsapp. We favour Zoom.us for stability and access from a laptop or a mobile. Please see our online notes for guidance on this.

Decide on your time and guest list! The joy of an online scavenger hunt is that there is no limit on the amount of people that can join in. All you need to do is make sure that everyone on your guest list has the video-conference link and the scavenger hunt score sheet and...off you all go!

## 4 On the day

Share your screen on presenter mode. When everyone joins they will see the title slide to get them in the mood as you greet them. When everyone is ready move through the slides, one by one using the right arrow button on your computer, until you get to the **Scavenger list** – this is the list of the things that need to be found in an hour. Remain on this page, start your timer...and set your guests on their magical Magpi hunt.

After the hour is up, gather everyone back to see what everyone has found. There are two ways to score the hunt:

- **(For smaller groups)** Each player can show the host (and everyone else) what they have found, as the host reads out the list of objects. The host can then mark the points (and any for added imagination) and give a final tally – and announce the winner – at the end
- **(For bigger groups)** The host can read out the list of objects and each player can mark their own sheet with the ones they have. Those who have imaginative objects in the 'special colour categories' can hold them up for the host to see at the end – and possibly get some extra points!
